

Questions and Answers to Contract Solicitations

August 3, 2021

I have a couple questions regarding RFP 0868-22-SO-03.

Q. In years past, there was a required form; J-1, related to Program Discharge Data. I do not see that form this year and I see J-1 listed as "not applicable", am I correct in reading that this year bids do not need to include outcome data, census data or any other data the program may have?

A. J-1 is not applicable.

Q. In years past I believe three (3) copies of each bid needed to be submitted. Am I correct in reading that this year two (2) copies need to be submitted, both signed as originals?

A. This is correct.

Q. RFP 0868-22-SO-03 does not state that services provided by Telemed are allowable. Would I be correct in assuming that RFP 0868-22-SO-03 does not allow services by Telemed, and if there are no acceptable bids for RFP 0868-22-SO-03, that a RFP for RFP 0868-22-SO-03T might follow, that would allow for a Telemed option as a back up (but not primary) mode of service delivery?

A. There is a local needs request for telemedicine listed on Pages C – 26 through 29 of the solicitation under RFP 0868-22-SO-03.
